

COMPLETE MEDICAL'S NURSE PRACTITIONERS AT OFFICE ADDRESS – 130,894

This highly responsive database is one of the most complete listings of Nurse Practitioners available. The file consists of more than 130,000 office-based nurse practitioners and is compiled from more than 50 data sources. The file compiles every known physician's office in the US and then re-verifies the data up to 6 more times for accuracy. This accuracy and depth of coverage make this file invaluable to healthcare marketers.

NPs provide some care previously offered only by physicians, including diagnosing and managing many common or chronic illnesses. Nurse practitioners are able to prescribe medication in all 50 states and DC. Working in collaboration with a physician, a nurse practitioner provides high-quality, cost-effective and individualized care for the lifespan of patient's special needs.

Nurse practitioners are excellent prospects for continuing education, journals and other professional literature, uniforms, seminars, recruitment, as well as many consumer offers, such as vacations, credit cards, magazines, apparel and much more.
