

COMPLETE PHYSICIANS ASSISTANTS – 39,425

These state licensed physician assistants are licensed to practice medicine with physician supervision. PAs conduct physical exams, diagnose and treat illnesses, order and interpret tests, counsel on preventive health care, assist in surgery, and in virtually all states can write prescriptions. Within the physician-PA relationship, physician assistants exercise autonomy in medical decision making and provide a broad range of diagnostic and therapeutic services. A PA's practice may also include education, research, and administrative services.

Physicians Assistants are excellent prospects for continuing education, journals and other professional literature, uniforms, seminars, recruitment, as well as many consumer offers, such as vacations, credit cards, magazines, apparel and much more.

See why Complete Medical Lists is *the* source for medical and allied health professionals:

- NCOA'd every six weeks... guaranteed!
