

COMPLETE MEDICAL'S PHYSICIANS ASSISTANTS AT OFFICE ADDRESS – 58,974

This highly responsive database is one of the most complete listings of Physicians Assistants available. The file consists of more than 58,000 office-based Physicians Assistants and is compiled from more than 50 data sources. The file compiles every known physician's office in the US and then re-verifies the data up to 6 more times for accuracy. This accuracy and depth of coverage make this file invaluable to healthcare marketers.

Physician assistants are licensed to practice medicine with physician supervision. PAs conduct physical exams, diagnose and treat illnesses, order and interpret tests, counsel on preventive health care, assist in surgery, and in virtually all states can write prescriptions. Within the physician-PA relationship, physician assistants exercise autonomy in medical decision making and provide a broad range of diagnostic and therapeutic services. A PA's practice may also include education, research, and administrative services.

Physicians Assistants are excellent prospects for continuing education, journals and other professional literature, uniforms, seminars, recruitment, as well as many consumer offers, such as vacations, credit cards, magazines, apparel and much more.

See why Complete Medical Lists is *the* source for medical and allied health professionals:

- NCOA'd every six weeks and again the day your file ships... guaranteed!
- 100% office telephone number coverage... guaranteed!
